

ACME TECH SOLUTIONS

Company Policy Handbook

Document ID: POL-001 Version: 2.1 Effective Date: 01 January 2026

Purpose

This handbook defines the standard workplace policies for employees, contractors, and managers of ACME Tech Solutions. It is intended to provide clear, consistent guidance on working practices, security, leave, conduct, and information handling.

1. Working Hours and Attendance

The standard working schedule is Monday through Friday, 9:00 AM to 6:00 PM, including a one-hour meal break. Employees may work remotely when approved by their manager. Employees should notify their manager as early as possible if they will be late or absent.

2. Leave Policy

Full-time employees receive 18 days of paid annual leave and 12 days of paid sick leave per calendar year. Annual leave should normally be requested at least 3 working days in advance. Sick leave exceeding 2 consecutive working days may require supporting documentation in accordance with applicable law.

Leave Summary

Leave Type	Annual Entitlement	Typical Notice
Annual Leave	18 working days	3 working days
Sick Leave	12 working days	As soon as practical
Public Holidays	As applicable	Not required

3. Information Security

Employees must protect company information, credentials, devices, and customer data. Passwords must not be shared. Company accounts must use multi-factor authentication where available. Sensitive documents should only be stored in approved company systems.

Any suspected security incident—including phishing, accidental disclosure, lost devices, or unauthorized access—must be reported to the IT Security Team immediately and, where possible, within 2 hours of discovery.

4. Acceptable Use of Company Technology

Company computers, networks, email, and collaboration tools are primarily provided for business purposes. Limited personal use is permitted when it does not interfere with work, create security risks, or violate law or company policy.

5. Remote Work

Remote employees must maintain a secure working environment and use company-approved devices and communication tools. Confidential conversations should not be conducted in public spaces where they may be overheard. Employees are responsible for maintaining reasonable availability during agreed working hours.

6. Code of Conduct

ACME Tech Solutions expects respectful, professional behavior. Harassment, discrimination, bullying, retaliation, threats, and deliberate misuse of company resources are prohibited. Concerns may be reported to a manager or Human Resources without fear of retaliation.

7. Conflict of Interest

Employees must disclose situations that could create a conflict between personal interests and company responsibilities. This includes significant outside business activities, certain vendor relationships, or financial interests that could influence business decisions.

8. Data Classification

Company information is classified into four levels. Employees should handle information according to its classification and the principle of least privilege.

Classification	Examples	Handling
Public	Published website content	May be shared externally
Internal	Routine procedures, internal announcements	Company use; do not publish externally
Confidential	Business plans, contracts, employee records	Access limited to authorized personnel
Restricted	Credentials, security keys, highly sensitive customer data	Strict access control; approved systems only

9. Expense Reimbursement

Reasonable business expenses may be reimbursed when they are necessary, properly documented, and approved according to the expense process. Receipts should normally be submitted within 15 calendar days of the expense. Expenses above INR 25,000 require prior manager approval.

10. Procurement and Vendor Management

Employees must use approved vendors for company purchases whenever practical. Commitments on behalf of the company may only be made by employees with appropriate authorization. Potential vendor conflicts or gifts that could influence a purchasing decision must be disclosed.

11. Policy Exceptions

Exceptions require written approval from the relevant department head and, where applicable, Human Resources or Information Security. An exception should identify the policy section, business reason, duration, and compensating controls.

12. Policy Questions and Reporting

Questions about this handbook should be directed to Human Resources. Security-related questions or incidents should be directed to the IT Security Team. Employees may report policy concerns through their manager, HR, or the designated confidential reporting channel.

Quick Reference

Topic	Key Rule
Working hours	Mon–Fri, 9:00 AM–6:00 PM
Annual leave	18 paid working days
Sick leave	12 paid working days
Security incidents	Report immediately; target within 2 hours
Expense receipts	Submit normally within 15 calendar days
Expenses > INR 25,000	Prior manager approval required
Restricted data	Approved systems and strict access control

This is a fictional sample policy document created for RAG/document-intelligence demonstrations.
